

# Rajagopuram – Main Tower Restoration Project

August 2024

November 2025

**Dear Devotees, Well-Wishers and Members of All Communities and All Faiths**

Many years of intensive studies and analysis of **Our Dream Project for the “Rajagopuram – Main Entrance Tower”** restoration by Superior Granite Stones from Salem – Tamilnaadu – India is slowly coming to live now.  
**August 2024 – November 2025**

Our own Team of Professionals (mainly Past-Presidents and Trustees) of different fields of Engineering and Financial disciplines were entrusted by the Boards of Saiva Mission of Quebec (*the administrative body of the Montreal Thirumurugan Temple*) and unanimously assigned as “Restoration Project Team” for this superior intricate project. They were in due consultation with the World renown Religious Architectural scholar from India from Day 1 (2022) till this time for this superior immense project of its kind in North America.

All preliminary works have already been completed with the graceful approval and permit from our City of Dollard des Ormeaux - Quebec. All steps are in progressive ways in all aspects. Preliminary start of the religious rituals had taken place on an auspicious Friday – 10 May 2024 and more to be conducted by our Temple Priests by end of August. Later removal of the existing old exterior will begin in September 2024 and planned to install the newly carved Granite stones from Salem – Tamilnaadu – India by spring of 2025 and expected to be completed by fall of 2025.

One of the many analytical points was the selection of the Superior Granite stones to be in resonance with the rules of our Agamic Shastra. (Religious aspects of Granite composition) Carefully chosen samples were tested with many factors by our subject matter experts for International/National standards like ASTM, IIT, and many building codes that were jointly discussed with our Sthapathy in India and our Professional contactor in Quebec. Selection of granite stone is not simply like any other granite job but needs to be carefully selected to be in line with our Main Tower construction of the Temple very religiously in all aspects.

**We would like you to be part of this immense project by offering a simple donation or sponsoring a piece of granite stone on your name or for the family**

**You may hold a piece of a memorable stone for the family in our Temple**

**Restoration “Khumbhabhishekam”  
(Restoration - Consecration ceremony)  
will take place before end of 2025.**

Our sincere gratitude goes all the way to our **World renown Vedic, Religious Architectural scholar** who handled this project very well and effectively from the early start to this point and will continue his services with us until completion.

**Dr. K. Dakshinamoorthy Sthapathy, B. Sc., M.A., Ph.D.  
Karaikudi – Tamilnaadu - India**

We also would like to recognize and respect  
**Mr. Leonardo Soares, P. Eng – President, Altapex Construction**  
Montreal, Quebec – Canada *(a leading professional construction company in Canada)*

Very instrumental in working along with us for all the regulatory and other norms of Quebec and Canadian codes of standards for the local installations of granites from the guidance of our Sthapathy in India.
